

Integration SAP Digital Payments Add-On in SAP S/4HANA

Beitrag von „Claus Wild“ vom 21. Mai 2018, 09:53

The screenshot shows the SAP Fiori Launchpad interface. At the top, there is a blue header bar with the SAP logo on the left and a button 'Einführungsleitfaden anzeigen' (Show Introduction Guide) on the right. Below the header, there is a navigation bar with a dropdown menu, buttons for 'Alles expandieren' (Expand All), 'Positionieren' (Position), 'Existierende BC-Sets' (Existing BC Sets), 'Release-Informationen' (Release Information), and a 'Mehr' (More) dropdown.

The main content area is titled 'Struktur' (Structure). It displays a hierarchical list of integration components:

- Integration mit anderen SAP-Komponenten
 - Geschäftsnetzwerkintegration
 - Integration mit SAP Hybris Cloud for Customer
 - Integration for Purchasing
 - Advanced Planning and Optimization
 - Integration mit Governance, Risk and Compliance
 - Anbindung Machine Learning
 - Transportmanagement
 - Extended Warehouse Management
 - Supply Network Collaboration/Inventory Collaboration Hub
 - Datenübertragung in das Business Warehouse
- Integration mit dem SAP Digital Payments Add-on
 - SAP Digital Payments Add-On aktivieren
 - Szenarien für SAP Digital Payments aktivieren

The 'Integration mit dem SAP Digital Payments Add-on' section is highlighted with a dashed border, and the first item 'SAP Digital Payments Add-On aktivieren' is also highlighted with a yellow background.
