

Massensynchronisation von Formatbäumen

Beitrag von „Claus Wild“ vom 26. August 2019, 11:42

Mit der DMEEEX ist die Massensynchronisation von Formatbäumen möglich. Dazu wird ein "Master" Baum angelegt, und alle dazugehörigen Formatbäume hinzugeordnet (im SAP-Standard werden dazu die Bäume CGI_CT und CGI_DD ausgeliefert. Notwendige Änderungen an den Knoten können somit nun einfach und schnell verteilt werden:

DMEEEX: Change Format Tree CGI_CT (Maintenance)

Tree Type / ID: PAYM / CH_CGI_XML_CT

Short Description: CGI: DMEE XML Format as per ISO20022

Documentation: CGI_XML_CT

Version: 001 Maintenance version

Original Lang.: EN
